

Dear San Rafael Chamber member:

On Wednesday, May 14, 2008, 3:30-7:30, the San Rafael Chamber of Commerce will hold its annual Business Showcase at the Marin Center Exhibition Hall. This event is the Chamber's largest event and the largest and highest attended trade show in Marin County. This year the Chamber will be celebrating it's 20th year!

NEW this year, the Chamber is introducing the Health & Wellness Hall. This part of the event will showcase businesses in the health & wellness industry, such as yours, that are dedicated to keeping our community members & businesses thriving. The Health & Wellness Hall will be showcased in an area separate from the main hall creating more of a focus on the industry and the benefits to local businesses.

The top main objectives for the Showcase as a whole are:

1. To showcase local companies, products, services and community involvement.
2. To introduce new services and products which are now available to the local business community.
3. To establish relationships between businesses, both participants and attendees, that will benefit the general business community.

The top main objectives for the Health & Wellness Hall are:

1. To show local businesses how their businesses will benefit from the services provided by the health & wellness industry.
2. How local businesses can integrate these services into their businesses so they will continue to thrive.
3. To introduce local businesses to services related to health & wellness which contribute to more productivity and less lost revenue.
